

1. Open BBC iPlayer app

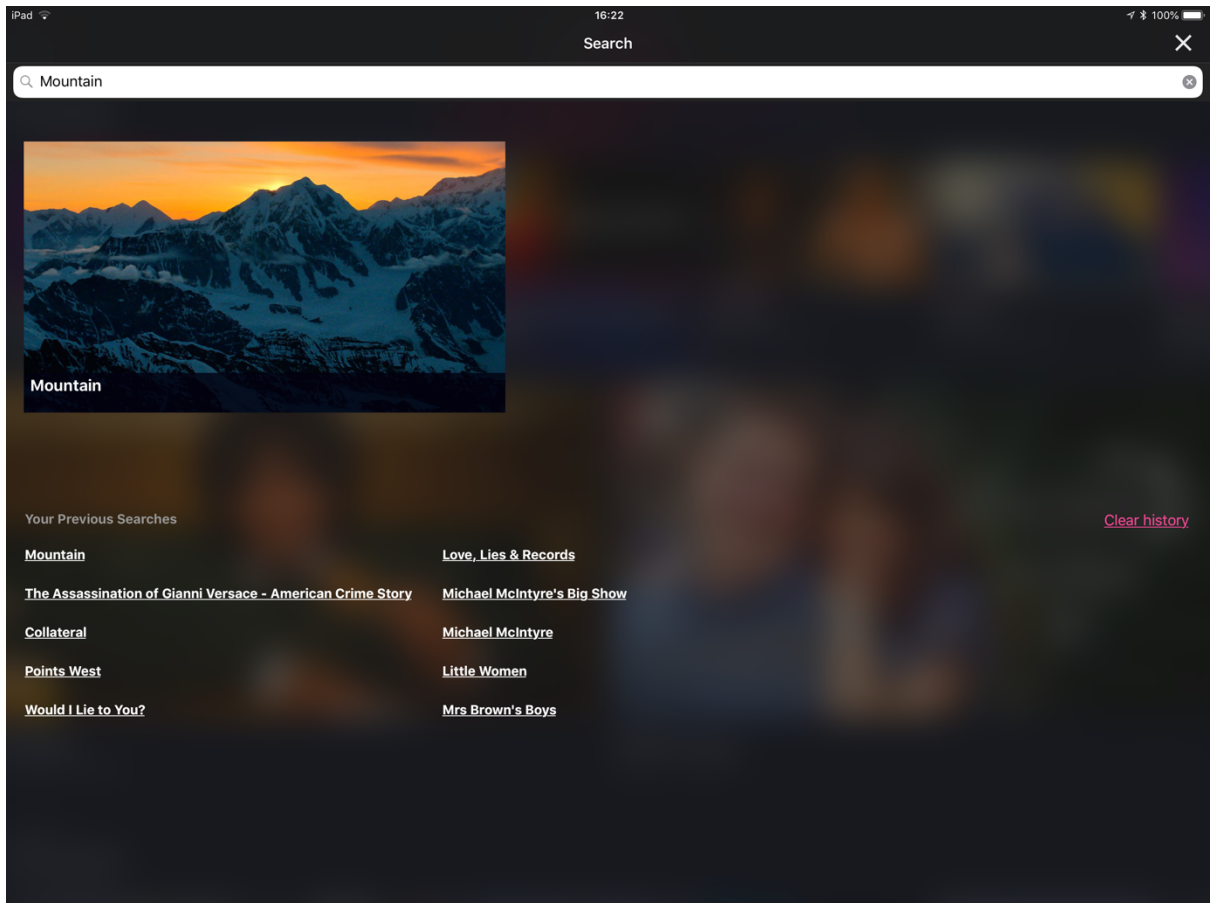

2. Click on the magnifying glass

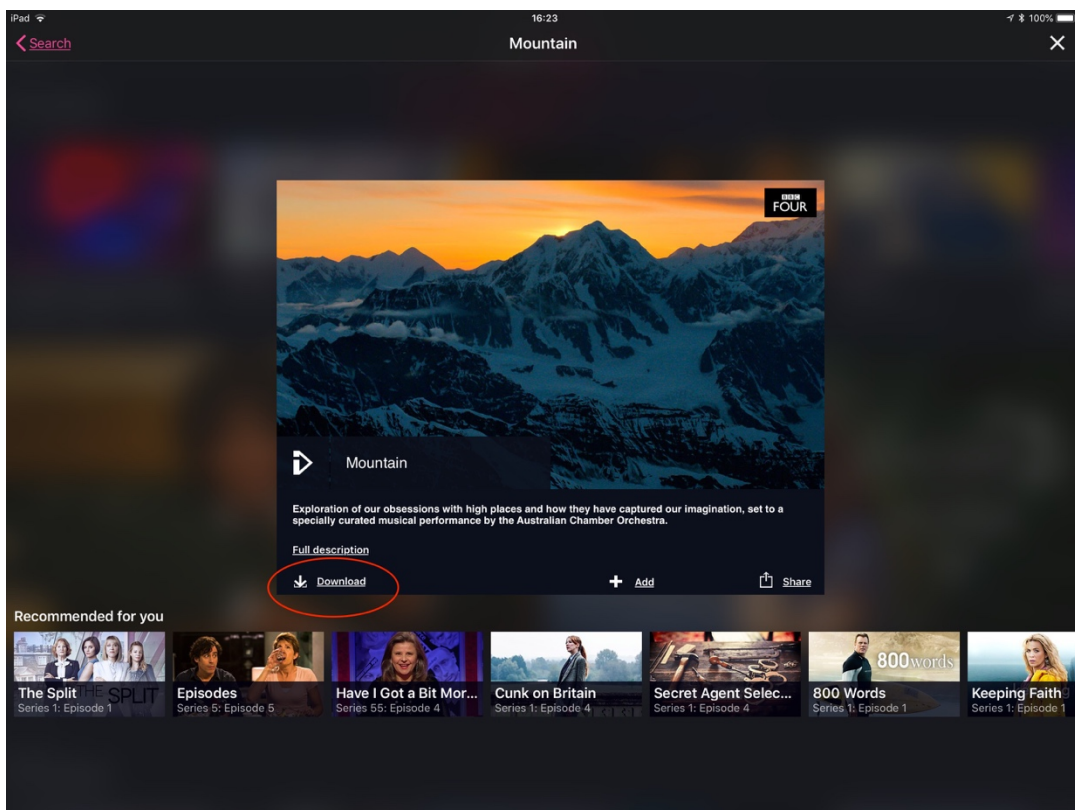

3. Type the title of your required programme i.e. Mountain into the search bar

The programme will automatically appear.

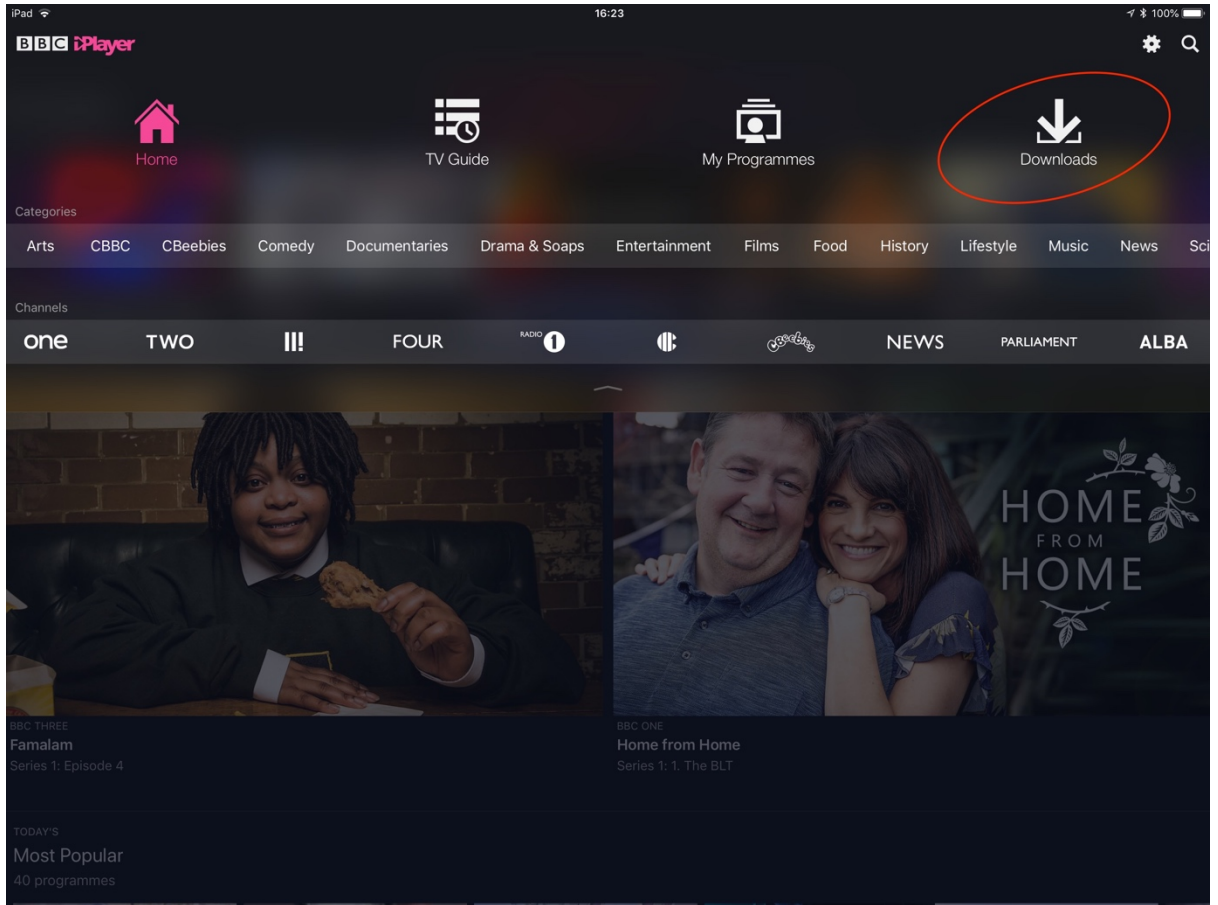

Click on the image of the programme and you will then see the following screen:

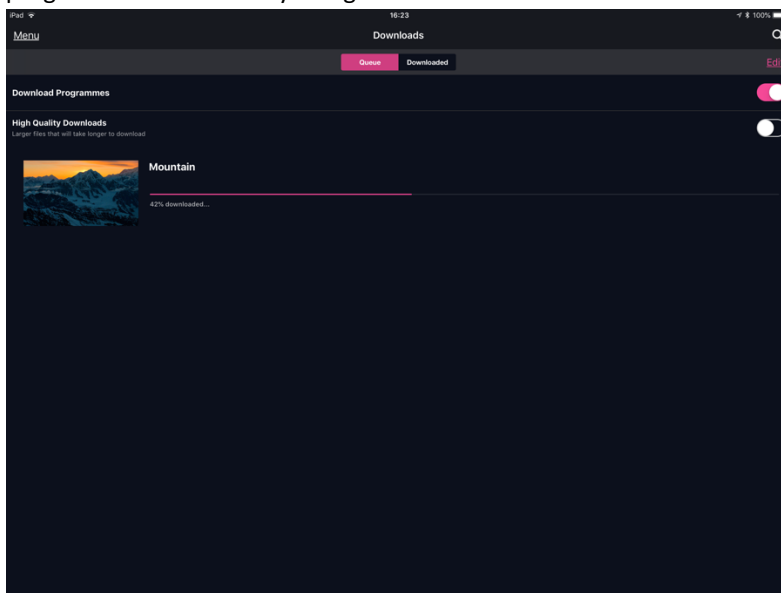

Click on Download

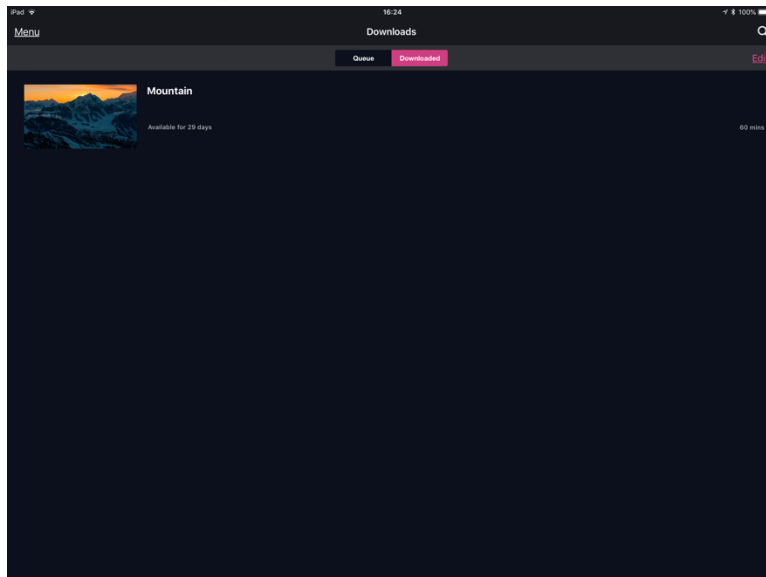

- Download begins, and you can now leave this screen by clicking on the X on the top right hand of screen.
- This takes you back to a screen where you will then see “Menu” in top left hand corner. Click on menu and you will then see following screen.

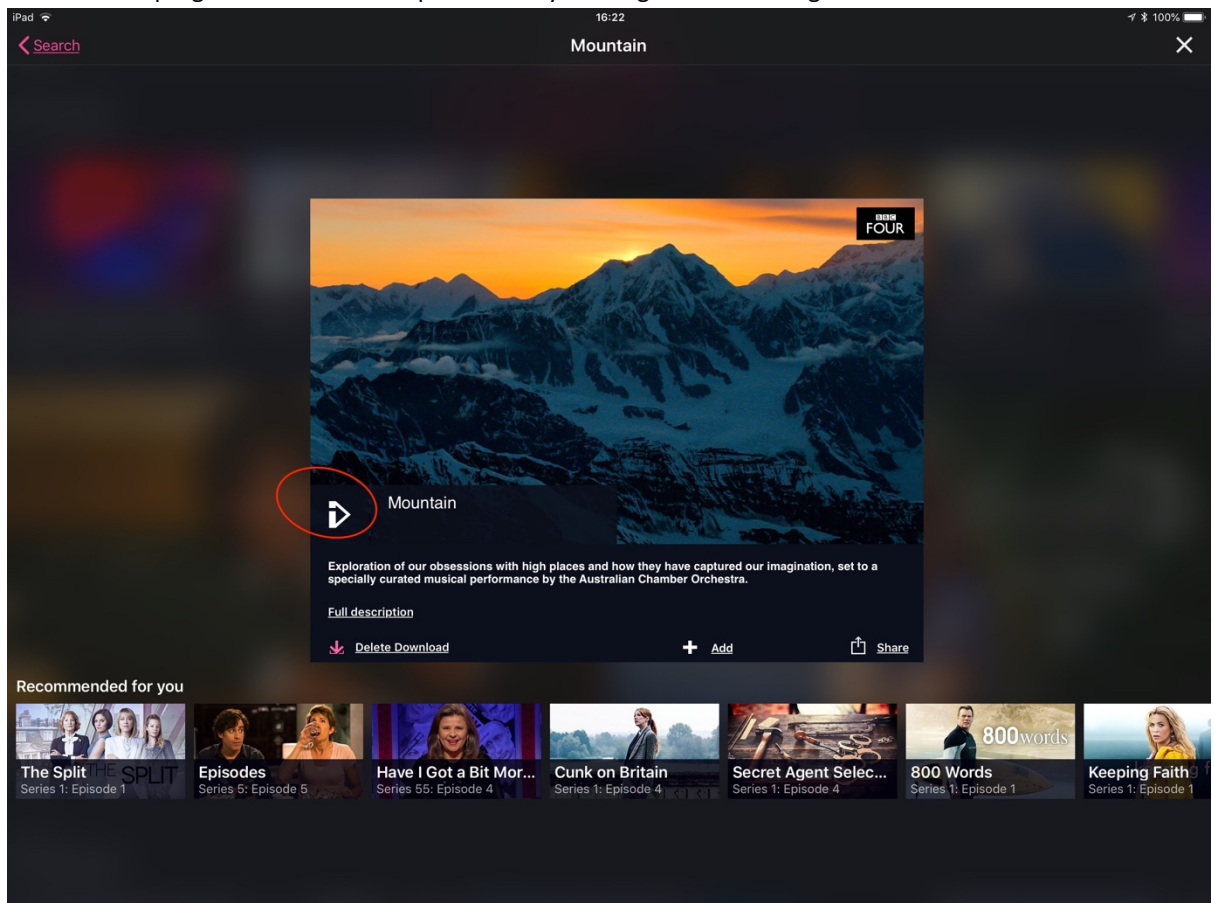

- Click on “Downloads”
This next screen then shows you two options: click on “Queue” and it will show you what programmes are currently being downloaded:

Click on “Downloaded” and you will see what programmes have been downloaded. **NOTE that the programme is only available for a certain number of days, after which it will automatically be deleted from your ipad!**

7. To watch the programme click on the picture and you will get the following screen.

Click on the arrow next to the programme title and the programme will start playing!
